

04 Arredare con il tappeto

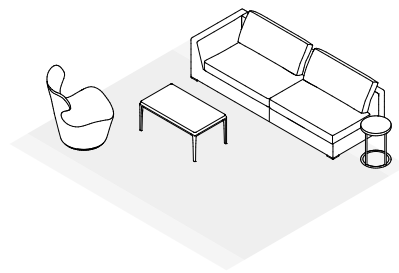

Se il materiale, i colori e il disegno di un tappeto contribuiscono a determinare lo stile di un ambiente, la dimensione ne determina senz'altro la percezione complessiva. La scelta è naturalmente condizionata dallo spazio disponibile, ma è importante valutare anche la relazione con gli altri componenti di arredo. A titolo esemplificativo, in questa sezione sono rappresentati alcuni possibili layout di diverse aree della casa.
